

Will Robertson is an Upper School science teacher at Stone Ridge School of the Sacred Heart in Bethesda, Maryland. A Colorado native, he has been teaching high school science courses since 2011 and joined the faculty at Stone Ridge in 2016. He has taught a variety of science courses during his time as an educator, including: biology, chemistry, physics, human anatomy, and biochemistry/bioorganic chemistry. He holds a BA degree in biology (magna cum laude) from the University of Colorado at Boulder, and a MS degree in chemistry (specializing in organic chemistry) from The Scripps Research Institute (La Jolla, California). In addition to teaching, he is an avid meteorology and geoscience student and is currently working towards a post-baccalaureate certificate in meteorology education, as well as professional certification as an American Meteorological Society (AMS) teacher. He is an active member of the American Chemical Society (ACS), American Meteorological Society (AMS), and American Geophysical Union (AGU). In addition to studying the weather and teaching, he is also an avid flag, geography, and space enthusiast. He also enjoys playing the didgeridoo and the jaw harp, as well as spending time with his wife, Casey, and two loveable mutts (Wunjo and Jera).
